# Why choose **e-Private**?

If you wish to have total freedom to manage your accounts, then we propose **e-Private**.

## ■ Analyse your portfolio

- Visualise your cash and securities rapidly.
- Break down your assets per asset class, currency, region and sector.
- Consult an overview of all movements.
- Keep track of your investment portfolio, valued intraday on the markets.
- Export your data to Excel format.

## ■ Place orders when you choose

- Buy and sell securities on the major international markets with just a few clicks.
- Benefit from the flexibility of direct 'stop' orders on the markets.
- Follow up the execution of your orders in real time in your order book.

## ■ Make payments and standing orders

- Make multi-currency internal transfers.
- Use external transfers for your national and international payments.
- Plan your standing orders.
- Store account numbers of your beneficiaries in IBAN format.

## ■ Stay informed

- Access information from *Reuters Investor*.
- Keep track of the major international indices and exchange rates.
- Consult Europe Today, the daily analysis by Cheuvreux.
- Check our recommendation lists for stocks, funds and bonds.

## ■ Communicate safely

- Use the secure channel to communicate with your Relationship Manager via **e-Private**.
- Consult your personal e-mail (*transaction notices, account statements, portfolio overviews*) in an easily printable PDF format.

## The advantages of **e-Private** ✓

- ✓ **Stock exchange orders directly transmitted to brokers for the major European and US securities.**
- ✓ **Information on all corporate actions with regard to your securities.**
- ✓ **Online consultation of your credit card statements.**
- ✓ **Possibility to send and receive enclosures via secured e-mails.**
- ✓ **Double signature system within your company.**
- ✓ **Generate portfolio overviews in PDF format on request.**
- ✓ **Export portfolio data including historical movements to Excel.**
- ✓ **Compatible with PC & MAC.**

Your assets are safe and secure with **e-Private**

## Two identification layers

Access to **e-Private** is dependent on two identification layers.

The first is based on a SecurID®card. The card displays a random number that changes every minute, enabling the encryption of all data transmitted between you and the bank.

The second is based on the combination of a PIN and a password of your choice

## Confidentiality

**e-Private** is compatible with the private navigators offered by the most recent browsers (such as Internet Explorer 8, Firefox 3 or Safari 4).

You also benefit from our Internet Explorer module which automatically wipes your browser history.

## Encryption

All data transmitted between your computer and the bank is encrypted using the TLS 1.0 protocol. TLS has succeeded to SSL and offers improved data protection. All data transmitted are encrypted using a 128 bits key.
